

Dear Parents/ Carers

As part of our OPAL project, we want to ensure that children from Reception to year 6 have access across the school ground no matter the weather. As the weather changes, our school field can become very wet. In order to ensure that everyone can access this, children can bring a pair of wellies into school. We now have a system in place where on certain days when it is very wet only children with wellies will be able to access the field.

Please send your child's wellies into school inside a plastic bag which is named, please ensure your child's wellies are also named. They will then use this bag to store their school shoes in while they are wearing their wellies. Their wellies can be left in school ready to be used each day.

Please also ensure your child has a water proof coat in school every day ready for the ever changing weather.

Thank you
Miss Eddy
OPAL Lead
